Recruitment Efficiency Checklist

Is Your Hiring Process Ready for the AI Era?

Use this checklist to assess your current hiring practices and identify opportunities for improvement.

Instructions: Check each statement that accurately describes your company's recruitment process.

01 / Recruitment Efficiency

- ☐ We can efficiently manage high volumes of applications.
- ☐ Our HR team spends minimal time on repetitive administrative tasks.
- ☐ We regularly measure recruitment performance, including time-to-hire.

02 / Candidate Quality & Assessment

- ☐ We assess candidates based on relevant skills, not just their CVs.
- ☐ We use structured, job-related criteria to identify suitable applicants.
- ☐ We can evaluate candidates' capabilities beyond AI-generated application materials.

03 / Candidate Experience

- ☐ Our application process is simple and easy to complete.
- ☐ Candidates receive timely updates about their application status.
- ☐ Applicants have opportunities to demonstrate their individual strengths.

04 / Technology & Innovation

- [ ] We use automation to reduce repetitive recruitment tasks.
- [ ] Our recruitment tools can adapt to different positions and hiring needs.
- [ ] We use AI responsibly, with appropriate human oversight and data protection.

Your Recruitment Efficiency Score

Give yourself 1 point for each checked statement.

0–4 points	Significant opportunities for improvement
5–8 points	Good foundations, but important gaps remain
9–12 points	Strong foundations for efficient recruitment

/ What's Your Next Step?

Take a closer look at the statements you could not check. These highlight opportunities to reduce administrative workload, improve candidate assessment, and create a better hiring experience.

This is a self-assessment tool, not a scientifically validated recruitment audit.
